

AN ORDINANCE certifying and approving the need for the services of a consultant for architectural services for the development of a new prototype fire station and/or public safety building through its Board of Public Works.

WHEREAS, the City of Fort Wayne through its Board of Public Works desires to have professional architectural services for the development of a new prototype fire station and/or public safety building; and

WHEREAS, the City of Fort Wayne does not have the capability of performing this work with in-house forces; and

WHEREAS, the Board of Public Works believes that there is a need to employ a consultant to perform this service; and

WHEREAS, it is anticipated that the amount to be paid to said consultant, on an annual basis, will be in excess of \$100,000.00.

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA:

SECTION 1. The Common Council of the City of Fort Wayne hereby certifies and approves the need for the services of a consultant to provide professional architectural services for the development of a new prototype fire station and/or public safety building through the City of Fort Wayne Board Public Works .

SECTION 2. This Ordinance shall be in full force and effect from and after its passage and any and all necessary approval by the Mayor.

FIRE DEPARTMENT

June 23, 1997

Dear Council Members,

RE: Architectural Services for a Fire Station/Public Safety Building

I am requesting your approval of a contract for architectural services between the City of Fort Wayne and Moake Park Group. The contract has been approved by the Board of Works.

The services are required for the development of a proto-type for a new fire station and/or public safety building. The design will be such that the structure can be a stand alone fire station or a public safety facility shared by fire and police. The fire station portion will be a two bay station with full time living quarters. The police operations portion will have offices, squad room, meeting room and possible a holding cell. Some sections of the building would be shared by both department. The plans will allow for the construction of the fire station with placement of all utility requirements for the police operations portion that can be constructed at a later time.

Like our previous fire station design this facility would be constructed as either a fire station or public safety building at several locations. Current targets construction sites are Lahmeyer Road (97 possible 98), Getz Road (98) and Lima Road (99).

Thank you for your support.

Sincerely,

Steven Hinton
